Summary

As a passionate web developer, I specialize in creating responsive and dynamic websites using modern technologies such as HTML, CSS, JavaScript, and React. I have a strong foundation in front-end development, with a focus on delivering high-quality code and intuitive user experiences. Continuously learning and implementing best practices, I aim to craft efficient and scalable solutions.

Experience

kreativan technologies Chandigarh
Front End Developer 01/2024- 01/2025

- A company focused on web development and technology solutions
- Developed responsive web applications using Mern technologies
 - Collaborated with teams to translate client needs into technical solutions
 - Optimized performance and ensured cross-browser compatibility

DigiSky Fusion Mohali
Front End Developer 02/2025-06/2025

- Developed and deployed 3+ **responsive web applications** using **React.js** and **Tailwind CSS**, enhancing UI performance and consistency.
- Collaborated with UI/UX designers to improve user on boarding flows, resulting in a **25% increase in conversion rates**. Implemented reusable and modular UI components to maintain design consistency across projects.

MetaPonder Solution Mohali
Front End Developer 09//2025-present

- Worked on two major frontend projects, contributing to complete UI development from layout design to final deployment.
- Built responsive and modern interfaces using React.js, Tailwind CSS, and reusable component architecture.
- Integrated APIs to handle dynamic data and implemented clean state management using React Hooks.
- Improved performance through optimized code structure, reduced re-renders, and better UI workflows.

Education

Doaba Group Of Collage Mohali
Bachelor of Technology In ComputerScience & Engineering 08/2020- 06/2024

Skills

HTML CSS Javascript React • Tailwind Bootstrap• Git/Github • ResponsiveWeb • • •

Projects

1. Digisky.ai

Digisky.ai is an AI-powered SaaS platform that provides intelligent automation and data-driven solutions to help businesses streamline operations. Builtusing React.js, Node.js, MongoDB, and integrated with Firebase for smart data handling. Designed dynamic admin dashboards with real-time analytics for client data monitoring.

2. ShaadiSanskar

ShaadiSanskar isa modern matrimonial webplatform designed to connect individuals based on culture, religion, and personal preferences. Developed a fully responsive multi-step profile creation form with 6 steps, storing data in MongoDB via a Node.js backend. Integrated image uploads using Firebase Storage; only URLs stored in the database to reduce payload. Implemented real-time chat using Socket.io with user roles(freelancer/client) and message saving in MongoDB.

3. DigiskyFusion

Digisky Fusion is a web and mobile development agency that offers customized digital solutions for startups and businesses. Developed and deployed 5+ **responsive websites** using **React.js, TailwindCSS**, improving load time and mobile performance. Created reusable UI components and implemented responsive designs using Tailwin.
